If person is incapable with respect to the CPR / No CPR decision, determine the lawful SDM

SDM Name _____ **Contact Number** _____

SDM Name _____ **Contact Number** _____

Plan of Treatment Information – please choose one of the following options

☐ **CPR – Provide full treatment and resuscitation.** CPR may involve the following interventions: chest compression, defibrillation, and artificial ventilation, insertion of an oropharangeal or nasopharangeal airway, endotracheal intubation, transcutaneous pacing, and drugs such as vasopressors, antiarrythmic agents, and opioid antagonists.

☐ **No CPR/Allow Natural Death.** The person is treated with dignity and respect and kept clean, warm and dry. Pain and symptom management and spiritual and psychosocial support are provided. Reasonable measures are made to offer food and fluids by mouth. Medication, positioning, wound care and other measures are used to relieve pain and suffering.

Regulated Health Professional Completing this Form
